DAB+ Digital Radio Adaptor

DAB-190

srp \$179.00 inc

- Takes your HiFi into the Digital Age
- High power DAB+ receiver
- Optimum audio quality
- With external TV antenna adaptor

The Nextwave DAB-190 is a plugin solution to add digital radio (DAB+) to your existing HiFi setup. Digital radio allows broadcasters to have many channels, tailoring each to specific audiences and tastes. The DAB+ spectrum falls within the TV spectrum, so a regular TV aerial connection is all you need for crystal clear reception, even outside of main coverage areas. The DAB-190 has analogue and digital audio outputs for compatibility with all HiFi, shelf-top and home theater systems. Trust Nextwave to make digital reception easy!

DAB+ Digital Radio Adaptor

DAB-390

srp \$299.00 inc

Make your current HiFi Digital/Internet Ready
High power DAB+/Internet Radio receiver (LAN & WiFi)
Optimum audio quality
With external TV antenna adaptor

The NextWave DAB-390 DAB+ and Internet Radio adaptor assists users to receive new Australian digital radio (DAB+) and internet radio channels using their current audio system. Tune into local digital radio broadcasts or to internet radio services from around the world. Just scan for DAB+ broadcasts in your area and pick channels by name from a list. Your favourite radio station may also be broadcasting more services and special programs. More than 20,000 Internet radio services can be selected by country and region, by name or by genre.
